

# Always on. Always reliable. **Always.**

**Novo is an emergency call system that  
always helps keep people safe**

**Novo by Legrand Care is brought to you by Access Health. It is always on, always reliable and always ready to avert emergencies. It helps keep people safe and offers peace of mind, too.**

#### **Novo is a state-of-the-art system**

- Leader for independent living and residential telecare
- Over one million units installed in Europe
- Intelligent end-to-end design
- Enables operators to safeguard residents
- Modern, compact device and wearables
- Links to management portal, delivers information in real time
- Operator always in control
- Globally proven, European made and manufactured
- Outstanding value for money.

#### **Future-proof your residents' safety**

- Powerfully simple
- Only telecare system that does not rely on cloud software
- 4G capabilities mean Novo always stays on
- Residents' safety and security always assured
- Peace of mind for residents and their families
- Integrates with smart home tech and Smovo smoke alarm
- Future-proof your systems and always safeguard your residents.

#### **Other ways Novo can benefit communities**

- Comes with accessories that allow users to feel safe in their home
- Wrist or lanyard wearables can raise an alarm, detect inactivity or falls
- False alarms are minimised
- Operator can check on alarm status before calling an ambulance
- Can view the technical status of the system

**Let us demonstrate how Novo works via a face to face or online consultation. We'll take you through the benefits, pricing packages, peripherals and set-up. Call Eddie or John on 1300 645 018.**
